# Mid/Senior Python Developer

As an employee in our agile team you develop our modern enterprise-wide information systems, which integrate all business relevant tools and systems around our CMDB. The focus of your field of activity lies in the backend of these systems that we implement in Python. Are you experienced in designing and implementing complex software systems and looking for a new challenge? Then noris has the job for you!

**Your role:**

- Develop and optimize highly available Software with modern methods
- Analyse problems and solve interference
- Design, develop, test, document and maintain web applications and APIs
- Develop custom solutions for our customers
- Collaborate with Frontend developers and DevOps
- Work using project management methods like Scrum as part of an agile team.

**Your profile:**

- You have solid experience in the development of software in Python3
- You are familiar with Technologies like REST, Continuous Integration / Deployment, git, aiohttp, nosetests, and can thus support us in these areas of software development
- Development of comprehensive software solutions and solving complex tasks is your daily business
- You have practical experience in a corporate environment and / or in open source projects
- A high level of teamwork and communication skills, independent, structured and solution-oriented work, engagement and a high readiness for action and willingness to learn will complete your profile
- Excellent organizing, prioritizing and multitasking abilities
- Excellent written and spoken English

**The following would be desirable as well:**

- Certain background in software development
- Good oral and writing skills in German

**What we can offer you:**

- Team spirit and a passion for information technology
- Professional and personal development. Budget for training opportunities, seminars, mentoring and internal training for shaping and realizing your career goals
- Flexibility in work schedule
- Competitive salary and performance-based bonuses
- Great work-life balance
- Team building events, pizza breaks, cinema nights and special occasion celebrations
- Well-located offices close to Thessaloniki's city center

**Who we are:**

noris is a high-tech company specialized in IT. It was founded in 2016 in Thessaloniki and it is a subsidiary of noris network AG, which has over 25 years of experience in IT technologies in Germany. The company provides customized IT solutions in the areas of IT outsourcing, Cloud Services and Network & Security. Technological basis of these services is a powerful IT infrastructure that relies on noris network's own high-performance backbone and multiple high-security data centers which are located in Nuremberg and Munich.

Our mission: Performance beyond the standard!
Our vision is to become the leading IT company in Europe providing customized IT solutions that are based on our high-quality services and customer's satisfaction.

**We look forward to receiving your application (with the earliest possible entry date), ideally via email.**

**Need help? We will be happy to help you with further questions.**
